Vision:

SMSC gives all of our children the opportunity to use their voices and talents in a way that creates a lasting impression. They have the ability to make informed decisions and put them into action the way they have envisioned it. They will take these opportunities, lessons and skills with them into the future. Our teaching supports them in this by allowing them to challenge themselves, take risks and develop an understanding about the world and cultures around them. They are able to embrace their own individuality and backgrounds. They are able to sustain, manage and fulfil desires as well as build upon previous knowledge and skills that allow them to become prepared for whatever they may encounter and to understand their place in the world.
